

There is so much anger and disagreement in our country!

Some people try to make a patriotic statement out of their view!

**We Support
Our
Broccoli
Farmers!**

Others proudly display their positive stance!

Yes, I'm of course talking about people's view about broccoli.

Some find any way they can to show their love of broccoli.

Others demand that school boards stop feeding kids broccoli at lunch!

Marjorie Taylor Greene believes Biden is going to force everyone to eat it!

On the other hand, some really go overboard to show their broccoli love!

Oh, please, get a grip lady!!! It's just broccoli!

Men seem to prefer their broccoli steamy!

A lot of people like it baked!

There's really no explanation of some people's attraction to broccoli!

But some will never be convinced!
